Ourown Construction Corp Recognized in National Hall of Fame Competition

December 8, 2016– A structure built by Ourown Construction Corp of Lena, WI has been recognized by Varco Pruden Buildings, one of the nation’s largest building-solutions providers. Varco Pruden is a division of BlueScope Buildings North America, Inc., and has a network of more than 1,000 builders across the United States and Canada.

Ourown Construction Corp has been named to Varco Pruden’s 2016 Hall of Fame as Best in Category nationwide for the Pro Products, Inc. facility in Sturgeon Bay, WI. The 38,712 square foot manufacturing plant and office was completed in April of 2015 with an additional warehouse/storage facility completed on the adjacent property in fall of 2016.

The highly competitive Hall of Fame Awards are presented annually to the independent authorized VP builders whose work reflects innovation and excellence through the integration of VP building systems, products, architectural appearance, end use and design. The projects include a range of industrial, commercial, retail and municipal projects.

Pro Products, Inc. is located at 1450 S. Neenah Avenue and is owned and operated by the Hurley family. The business was established in 2006 as a precision CNC machine shop. Their experience in manufacturing began in 1981 as a producer of automotive trim accessories and specialty marine hardware. Their building features a 170’ x 200’ manufacturing area with an overhead crane, interior recessed truck dock and expansive 42’ x 120’ office area highlighted by an arched glass entryway.

“The Hall of Fame awards provide an extraordinary opportunity to celebrate and recognize exceptional builders. These winners reflect the broad scope of capabilities and variety of end-use possibilities for buildings constructed by our builder network. VP builders consistently produce incredible results for their clients,” said Chuck Haslebacher, president of Varco Pruden.

Ourown Construction Corp was privileged to have the opportunity to work with the Hurley family to create this outstanding facility. “Being awarded the Best of Class in the manufacturing category for the Hall of Fame is an honor like no other,” said Duane Magnin, president of Ourown Construction Corp.

Ourown Construction Corp has been providing construction services since 1971 in the Northeast Wisconsin area. The company services its customers by providing all aspects of the design/build process.
